

Defense Against Social Engineering: Phishing

Student: Aggarwal, Ashish

Overall Score: 70 %

| <u>Objective</u> | <u>Score</u> |
|---|--------------|
| Identify what phishing is, and how it applies to your financial institution | 100 % |
| Recognize various types of phishing attacks | 33 % |
| Determine how to protect important information from phishing | 75 % |

Objective scores: Number of questions answered correctly in a particular objective divided by the total number of questions related to that objective.

Overall score: Number of questions answered correctly divided by the total number of questions on the test.

Note: The overall score is recorded in the LMS; however, the individual objective scores are not.
